

E-Discovery & Review Counsel – Litigation

Experienced advocates, project management & right-sized approach

Whether you are seeking to

- obtain legal counsel from veteran e-discovery litigators with a proven track record
- find experienced attorneys who advocate in negotiations with opposing parties, and plaintiff steering committees
- engage counsel who routinely appear in court and before magistrates, special masters, arbitrators, and regulators
- defensibly navigate multidistrict litigation
- leverage advanced analytics and technology assisted review to save both time and money

our team is here to help.

The scope of e-discovery is an important early factor that can directly impact case outcomes

- Managing large numbers of documents is of critical importance in any complex business litigation
- Developing defensible and focused collection and production protocols can directly affect litigation spend
- Negotiating approach for culling strategies, including search terms and the use of analytics, at the onset of litigation can be impactful to overall case strategy and review protocols

Nelson Mullins Encompass provides early case involvement that shapes litigation strategy and scope

- We regularly represent clients in meet and confers and Rule 26(f) conferences
- We routinely leverage analytics to developed tailored search terms

- Ability to advise on end-to-end e-discovery needs, including preservation, collection, processing, hosting, review, production, and advocacy
- Utilize analytics and TAR to deliver cost effectiveness and defensibility
- Cost efficiency and budget predictability

Experience

Following is a selected sampling of matters and is provided for informational purposes only. Past success does not indicate the likelihood of success in any future matter.

- **Discovery counsel for defendants in multidistrict litigation involving antitrust allegations.** We currently serve as discovery and review counsel to 16 defendants in a MDL involving antitrust allegations in the health insurance industry.
- **Data and integrated discovery counsel for cyberattack.** Nelson Mullins Encompass is discovery and review counsel in a data breach MDL for 13 companies facing hundreds of putative class actions related to one of the largest cyberattacks in history, with concurrent federal litigation, state cases, and congressional inquiries. Our representation includes advising clients on all phases of discovery; handling the complex, large-scale review and production; 30(b)(6) deposition preparation and defense; and coordination with law enforcement.
- **Discovery for manufacturer in multiple concurrent and related patent matters.** As discovery counsel for pharmaceutical manufacturer facing patent litigation in multiple federal courts, we had to review hundreds of thousands of documents for production. Each matter has distinct discovery parameters for scope, culling, production format, confidentiality, and privilege logs, requiring close management and tracking.
